Thanks, Doug. As we discussed too, it would be helpful to have a phone call on the outreach sooner rather than later. Thanks, Debbie

**Subject:** Followup from CAG meeting

Hi all,

As we discussed last night, the CAG would be very appreciate to obtain for the following input on their list of outreach and technical issues:

David, let us know where EPA would like support from the CAG and which activities the CAG is suggesting might make most sense for the CAG to do directly. Also review the list of fact sheets and let us know which ones EPA has or will be preparing.

Alice, can you look over the list of technical issues and perhaps group them into two or three categories such as 1) will be fully addressed in the FFS/PP, 2) will be addressed in the FFS/PP to some degree but perhaps not to the detail desired by the CAG, 3) will not be addressed in the FFS/PP to any real degree.

Also David, we had discussed working with EPA's EJ office to help with an EJ analysis, what do we need to do to help move that process along?

thanks

Doug
